REBEL DIAMONDMEN FINISH ANOTHER EXCEPTIONAL SEASON

Telstar High School's 1975 defending State Class "C" Champions, coached by Peter Brown, just finished another exceptional baseball season. Having been defeated by Greely 6-4 last Thursday in the Western Maine Finals, the Rebels completed the year with a 17-3 record. Following last years 20-0 season and the combination of the preceding two years' records, gives Telstar a very fine 57 win-12 loss record.

The Rebels, who as a team, had a fine .305 team batting mark will be graduating only four seniors, Doug Brooks, Levi Brown, Bruce Cummings and Paul Farrar, this year, and should again be in the thick of the MVC pennant chase next season.

This years edition won their first 10 games to lengthen their three year winning streak to 31 games, one of the longest winning streaks in Western Maine high school baseball, before being defeated by Monmouth 4-1. Monmouth was also the last team to defeat Telstar before they started their marvelous winning skein.

Junior second baseman Mal Bennett, at .429, Brooks .356 and junior Chris Olson and freshman B. G. Flynn at .351 were the hitting leaders, while Brooks, Bennett and junior Mark Thurlow were the RBI leaders with 16, 16, and 15 respectively.

The pitching staff led by juniors Thurlow 0.60 ERA, Bennett 0.70 ERA, and Duffy Ellsworth 1.97 ERA, helped combine with Brown and junior Jerome Holt for a staff ERA of 1.79 which should set the pace for next years Rebel nine.

Some of the highlights of this years season, excellent pitching performances by Mark Thurlow in his 1-0 shutout victory over Berlin, N. H.; Mal Bennett 6⅔ innings of shut out relief pitching against a tough Madison team. Duffy Ellsworth, who led the staff with 64 strikeouts in 39 innings of pitching got 14 of those against Class A Lewiston High; Levi Brown's 4 hit 11 strikeout performance against MVC champ-Lisbon; and Jerome Holt's three hit shut-out against Mt. Abram.

Some of the batting high lights included Paul Farrar's two home runs, one a grand slam, good for

COMMENTS FROM THE TOWN MANAGER'S OFFICE

We have experienced very little difficulty the short time we have closed the dump except for regular hours. At this writing only two have disposed of their rubbish outside the gate. One has been to court and paid a fine for littering, the other case is pending.

The cooperation of the public, as a whole, has been excellent, helping to keep the area clean although the new regulations are an inconvenience to most.

The Board of Selectmen have signed a contract with the Sewell Co. of Old Town to revalue the town. They expect to commence work in July. The new values will be used in 1976.

1975 tax bills will be mailed in July or August. The assessor's are in the process of reviewing property for this year. They have to do this work when they have time available which makes it difficult to establish a time schedule.

There is a supply of clothing in the town office which was left over from a rummage sale. It will be given to anyone who can use it.

BRENNON'S 'SECOND SUNDAY' PROGRAM IS INTERESTING

Attorney-General Joseph Brennon presented a most interesting "Second Sunday" program to Bethel Democrats and members of the public on June 8 at the Savings Bank. The Attorney-General described the role of his office as an advisor to the Legislature and the Governor, and as an investigatory organization. He mentioned plans to expand the role of the Attorney-General's office in tax fraud cases without adding new personnel. The revision of the Maine Criminal Code has been a major task of this Legislature, and Brennon spoke of the changes this will make in the courts of the state. He felt that the revision would be approved with the possible exception of the section dealing with the de-criminalization of marijuana possession. Those attending were able to address questions to the speaker, and it was a thoroughly enjoyable time, as the Attorney-General recalled the good vote received in Bethel in last year's primary.

The next "Second Sunday" will take place on July 13. Plans are to have a speaker familiar with issues and legislation in the Fish and Game area. There will be a Democratic Town Committee meeting in late June to finalize plans for Mollyockett Day activities.

25th ANNIVERSARY PARTY SCHEDULED

In her highly informative paper, Mrs. Labbie described the development of Albany, its geographical features, and its struggle for existence through the lean years of the Great Depression. Mrs. Labbie's presentation was infused with typical examples of Albany humor which were greatly enjoyed by the nearly 50 members and guests in attendance.

Stephen Seames of Locke Mills, a member of the Bethel Historical Society and a recent graduate of Gould Academy, selected as his senior project this spring an experience in museum management at the Dr. Moses Mason House. The Assessors have received the M. S. A. D. #44 budget, but are still awaiting the State and County tax bills before setting the tax rate and computing the taxes. The M. S. A. D. budget shows an increase of $3,124.03 over last year. Greenwood, the only other town in the district showing an increase is up $3,203.45 Andover shows a decrease of $15,390.12; Bethel, $436.34 and Woodstock down $494.95. Because of the increase in the school budget, an increase of $4,351.84 in local appropriations and an additional loss of $97,800 in valuation under the tree growth law this year, there will be a substantial increase in taxes over last year. Under the law, 90% of the loss under the tree growth law is to be made up by the State. However, the loss for 1974, approximately $7,500, will not be made up until late this year. The loss for 1975 and 1976 will not be made up until late in 1977.

Keep in mind we'll also need your help on the supper!)

WHEELER MINE CAMP DESTROYED IN SUNDAY FIRE

The Wheeler Camp #1 situated on the mountain near the Wheeler mine and now owned by Mrs. Marilyn Wheeler was destroyed by fire of unknown origin on Sunday.

Steven Wheleer, who had been staying at the camp, wasn't there at the time the fire started. The Bethel Fire Department responded to the call. They were unable to go up with the pumper, but used a four wheel drive machine and with plenty of water were able to keep the fire from spreading. Fire chief Harold Carver and his men did a good job (as there was a hard wind at the time) in keeping the fire from spreading into the wooded area.

The camp had sentimental value to Mrs. Wheeler and family, as it was built by her late husband Roger Wheeler.

30 Seconds WITH THE NAZARENE

Rev. Barbara Huse, Pastor
Bethel Church of the Nazarene

Let us make this a salute to our graduates in the Bethel area. The question arises, where do they go from here? It is a real accomplishment to graduate from high school, college. Now their heads are full of knowledge—but how they apply it in the best manner possible is the real issue. One of our teachers in high school constantly reminded us that knowledge can be a dangerous thing. The worth of true wisdom is dealt with extensively in the book of Proverbs in the Bible. Simply to have knowledge is not sufficient, one must also understand how to use it properly. We have often thought of the three words, knowledge, wisdom and understanding. We feel sure that they go together and are rather difficult to define. A look into good old Webster's dictionary indicates that these three words are practically synonymous. Anyway what we really want to say is this, "To all the graduates of the Bethel area, congratulations, you made the grade. You have reached another plateau of life. Keep on learning and add to your knowledge experiance." Proverbs 9:10 "The fear of the Lord is the beginning of wisdom; and the knowledge of the Holy is understanding." "For the reverant and fear of God are basic to all wisdom. Knowing God results in every other kind of understanding.," The Living Bible.

On the Job With Emily

Week of June 2-6

With sights set on adjournment this month the Legislature is working at a very rapid pace, and being faced with many of the "big bills" on which there is much debate.

The "Bottle Bill" went down to defeat with its provision for referendum two weeks ago. The final vote came in the Senate which voted 16-14 to indefinitely postpone the bill. Both Senators Phillip Jackson, Harrison, and Donald O'Leary, Mexico, were for postponement, thus against returnables. Senator Minette Cummings,

Gov. Longley's recent nominee turned down for the Public Utilities Commission by the Executive Council, was the crucial vote. She had told Rep. Jack McKernan, sponsor of the "Bottle Bill" that she would support it and at the last minute changed her mind. Rep. McKernan told Emily last week that the issue of returnables will be brought up again, either through public petition or again in the 1976 session.

The House recently supported the concept of a season for moose hunting in Maine, despite initial Senate opposition. The Fish and Game Dept. estimates that 50,000 people would take out chances at $3 per person. From the 50,000, all Maine residents, 500 names would be drawn. The 500 would then purchase licenses at $25 per person. The total revenue gained by the State would be $162,000. In addition, a biological case for a moose season was made by the bill's supporters.

The Committee on Natural Resources has reported several bills which would weaken, and in the case of the "Wyman" Bill, totally repeal many of Maine's environmental statutes. Emily opposed these bills, as did a majority of her colleagues, feeling that the goal of environmental protection IS protection and that while allowing intervention at hearings by citizens may slow the development process, such intervention is vital.

The bill to abolish the Executive Council seems to be generally popular except that the House and Senate are trying now to compromise on the composition of the committee which would confirm gubernatorial appointments. The Senate would prefer to retain that role for itself, while the House would like to see a joint committee set up.

LD 1917, a redraft of LD 655, is of special interest to small towns in District 63. It changes some of the provisions in the property tax system set up by the 106 Legislature. The bill gives communities the option of remaining as single or individual municipal assessing units. It will not require the hiring of full-time or part-time certified assessors, and will not require tax maps, an assessor's office open full-time, electronic data processing, a certain number of appraisers, nor budget approval by the Bureau of Property Taxation.

The recent cold spell may have brought back thoughts of firewood. The problem of wood fuel has not been ignored in Augusta. Rep. Peterson of South Windham is sponsoring a bill which would set up controlled firewood harvest on Maine's public lands, the wood to be sold to Maine's low income people for as little as $2 per cord. The bill contains provisions for supervision of the program, and Emily supports it. However, it has run into opposition from wood dealers and was set aside for two days last week.

CRESCENT PARK FIELD DAY HELD LAST THURSDAY JUNE 5

Certificates were awarded to the first, second and third place finishers in each event.

In the afternoon kickball tournaments were held at each grade level. First place certificates were awarded to Miss Merrill's room grade 3, Miss Newcomb's room grade 4, and Mr. Worcester's room grade 5.

RESPECT THE FLAG

When you see the Stars and Stripes displayed, son, stand up, and take off your hat. Somebody may titter, It is in the blood of some to deride all expression of noble sentiment. You may blaspheme in the street and stagger drunken in public places, and the by-standers will not pay much attention to you; but if you should get down on your knees and pray to Almighty God, or if you should stand bareheaded while a company of old soldiers marches by with flags to the breeze, some people will think you are showing off.

But don't you mind! When Old Glory comes along, salute, and let them think what they please! When you hear the band play "The Star-Spangled Banner" while you are in a restaurant or hotel dining room, get up even if you rise alone; stand there and don't be ashamed of it, either!

For of all the signs and symbols since the world began there is none other so full of meaning as the flag of this country. That piece of red, white and blue bunting means five thousand years of struggle upward. It is the full-grown flower of ages of fighting for liberty. It is the century plant of human hope in bloom.

Your flag stands for humanity, for an equal opportunity to all the sons of men. Of course we haven't arrived yet at that goal; there are many injustices yet among us, many senseless and cruel customs of the past still clinging to us, but the only hope of righting the wrongs of men lies in the feeling produced in our bosoms by the sight of that flag.

Other flags mean a glorious past, this flag a glorious future. It is not so much the flag of our fathers as it is the flag of our children, and of our children's children yet unborn. It is the flag of tomorrow. It is the signal of the "Good Time Coming." It is not the flag of your king—it is the flag of yourself and of all your neighbors.

Don't be ashamed when your throat chokes and the tears come, as you see it flying from the masts of our ships on all the seas or floating from every flagstaff of the Republic. You will never have a worthier emotion. Reverence it as you would reverence the signature of the Deity.

Listen, son! The band is playing the national anthem—"The Star-Spangled Banner!" They have let loose Old Glory yonder. Stand up and others will stand with you.

This tribute to the flag is offered to the country in appeal to all men and women of all races, colors and tongues, that they may come to understand that our flag is the symbol of liberty and learn to love it — Alvin M. Owsley, Past National Commander, The American Legion.

Save Our Country

May God save America
From Communistic rule.
They've ruined other countries;
Now let us not be a fool.
Just keep your eyes wide open
And our ears must be the same
For Reds are working unions,
Let's beat them at their own game.
They've two Unions in England;
And from Mexico they've tried
To enter into our Texas
But the Unions there defied.
They'll surely try it again
A foothold they want to get.
Let's be sure we are alert,
Their demands must not be met.

Ill cards were signed and sent to Evelyn Bean who is in the hospital at Rumford. Also, a plant was sent to her.

Our next meeting will be held the 16th when the 1st and 2nd will be conferred.

CARD OF THANKS

My sincere thanks for the honor bestowed on me at the Annual Chamber of Commerce Banquet at the Bethel Inn last Tuesday night. It is an evening my family and I will never forget.

Withdraw

Can you have your "cake" and earn high interest, too?

You know that now more than ever, it is important for you to be able to withdraw at least some of your savings on a moment's notice.

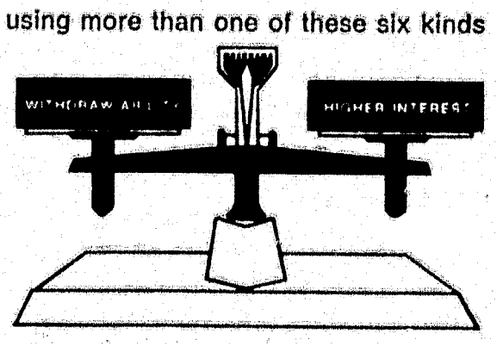
At the same time, you certainly want to earn as much interest as you can.

And this is what "Savings Manager" is all about.

The combination of "high interest" and "withdraw-ability" that makes the most sense for you.

"Savings Manager" is not just a savings account. It is the first true savings service. It makes it easy for you to use any combination of the six basic kinds of savings (each of which pays you a different rate of interest and gives you a different level of "withdraw-ability").

If you are not now using more than one of these six kinds of savings, you almost surely should be. And "Savings Manager" lets you strike the exact balance you want between "withdraw-ability" and a higher "interest batting average".



If you combine all your savings in "Savings Manager", can you still keep separate accounts?

Absolutely. That's one of "Savings Manager's" biggest plusses. You can have as many separate accounts as you want, and we include them all on one statement.* First we show you separate information and then calculate your average interest on all your savings to show you what your "interest batting average" is.

Savings available on a moment's notice

Under the "Savings Manager" umbrella there is a special place for money you want to be able to withdraw any time. Keep as much or as little as you want in this section of the plan.

90-Day Notice Savings

There's another place to keep money you'll need three months from now. And we make it easy for you to tell us when you want it.

Long-Term Higher Interest Savings

We call the other four basic ways to save "long-term deposits". You have four choices of interest rates here on money which you commit for periods of time between one year and six years. For up to four years you can deposit as little as $100 at a time. For periods of four years or longer Federal law requires at least a $1,000 deposit.

Now listen to this!

Each deposit you make in the short-term or long-term sections of your account is recorded separately. And each month* you receive our Combined Savings Statement, in which we tell you the exact date that each long-term deposit can be withdrawn or renewed.

We've only scratched the surface in this ad.

Sometime when you have a minute or two, we'd like to show you a little chart that better explains the many benefits you begin to enjoy when you become a "Savings Manager" customer. Stop at any office of the bank that's always thinking of new ideas to help you.
